

Being Safe

Children need to learn to use *'small world'* tools and equipment safely

- ① Show your child how to use a pair of **'safe'** scissors.
- ② Let them have a go at cutting a piece of paper in the shape of a circle or square.
- ③ Give them some different types of paper to cut e.g. shiny, tissue, coloured, newspaper.
- ④ Make an abstract collage using the pieces.

As your child gets older allow them to use more tools and materials safely and with control.
