

Storylines

Children need to be allowed to use their imagination to create their own stories and play situations.

- ① Provide your child with some dressing up items *e.g. old handbag, coat, umbrella, shoes, scarf, plastic sun glasses.*
- ② Let your child spend some time on their own playing with them.
- ③ Make up a story using some of the items. Ask your child to say what they think happens in the end.
- ④ Read a short story and leave out the last page. Discuss what you think happens next and then read the ending.

Make up a box of things that your child can use for role play on their own or with their friends.

You can also find further ideas in our Role Play section on iChild.
