Safer Internet Day 2016

Play your part for a better internet

Primary Assembly

UK Safer Internet Centre

What do you like to do online?

What would the world be like if we turned off the internet?

To stop internet press firmly.

It's a place where we can all share...

Hobbies

Dislikes

Likes

Wishes

Ideas

Opinions

But NO ONE has the right to hurt others or encourage others to hate people.

Does everyone always feel welcome online?

Is everyone always nice online?

How could you help your friend?

Your good friend enjoys uploading videos to the internet sharing top tips for Minecraft. Yesterday you went to check out his latest post and spotted some mean comments underneath.

One user in particular has left comments like: **'Ha ha your voice is so weird, why are you talking like that?'** and others have also commented on the words he has used. You know this will have upset your friend as he is trying to help others with Minecraft.

How could you help your friend?

A Do nothing

B Tell an adult

C Write a comment back

D Something else

What could you do?

You're researching online for a homework project about your favourite country. You find a website where people can post their own fun facts and share what they think.

You see that one person has posted lots of messages saying very horrible things about people from that country. They're trying to get other people to hate them too.

What could you do?

A Tell an adult

B Report the comments to the website

C Close the website and never use it again

D Something else

What could you do?

You're chatting with friends online and one of the friends shares a joke that makes fun of someone's religion. Another one of your friends writes back with this message about it:

That's not funny, it really upsets me.

What could you do?

A Help your friends to talk it out

B Tell an adult

C Block the friend who posted the joke

D Something else

What can I do?

If they did it on purpose:

- Tell someone

- Report it

- Block the comment or user

- Look for another site to use

- Don't join in or fight back

## It was a misunderstanding:

- Help your friends to talk to each other

- Ask someone what they meant

- Remind your friends that not everyone finds the same things funny

- Before you say what's on your mind ask yourself is it kind?

Why do I need to tell an adult?

- They can help to explain what you have seen

- They can help you to block or report comments and users

- If what you saw upset you, they can help make you feel better

- They can help you to find another website to use next time

What would the internet be like if we were all the same?

How can we celebrate difference online?

- Likes and kind posts

- Be an upstander

- Report and block hurtful accounts

Before you say what's on your mind, ask yourself, is it kind?

Don't forget to be SMART online!

SAFE — Keep your personal information safe

MEET — Friends made online are strangers; meeting them can be dangerous

ACCEPTING — Accepting files can be dangerous. If unsure, ask an adult!

RELIABLE — Not everyone or everything online is reliable or trustworthy

TELL — Always tell an adult if something online upsets or worries you
